

BRIAN W. DEW

(301) 442-2231 ◇ brianwdew@gmail.com ◇ bdecon.github.io

SUMMARY OF QUALIFICATIONS

- Proven expertise in organizing, analyzing, and explaining complex data and concepts
- Broad experience with advanced statistical, econometric, and mathematical research techniques
- More than eight years of advisory, research, program management, and data management experience
- Consistently exceed the highest standards for written communication and data presentation

EXPERIENCE

BD Economics

Founder/Principal

November 2015–

Washington, DC

- Founded BD Economics to provide useful and timely information on both recent macroeconomic trends and techniques for working with macroeconomic data. The project currently includes the U.S. Macro and Markets Dashboard, and guidance on reading and working with macroeconomic data using python, including a guide to using the IMF's API.
- Actively deliver research and consulting services to help companies find meaning in the endless stream of data, develop their existing resources, and bring products to market.

International Monetary Fund (IMF)

Training Coordinator/Programs Assistant

January 2010–January 2016

Washington, DC

- Manage the planning, delivery, and evaluation of the IMF program to improve the compilation and dissemination of macroeconomic statistics in member countries through training of civil servants.
- Create and maintain the statistics training program database to provide regular reports and analysis on program's results and achievements. Awarded four times for guidance of the training program.
- Complete successful projects, including detailed macroeconomic statistics scorecards for each country (used heavily by IMF management), econometric analysis for resource planning, and economic research on the global trade network for individual goods.
- Represent the IMF in committees, official meetings with civil servants, and on official travel. Regularly draft and issue correspondence, reports, advisory notes, and other documents.

Institute for International Finance (IIF)

Staff Assistant

June 2008–January 2010

Washington, DC

- Provide research assistance to the Deputy Managing Director (DMD) with a focus on Corporate Governance and Capital Flows to Emerging Markets, including through production of charts and tables for the Capital Markets Monitor, the IIF reports on Corporate Governance Reform and several PowerPoint presentations by the DMD at global conferences.

EDUCATION

American University

M.A. in Economics, Capstone paper: *The International Trade Network Origins of Domestic Fluctuations*
