About the Dashboard

The Macro and Markets Dashboard for the United States contains more than 100 indicators of the performance of the U.S. economy. The dashboard includes twelve categories of charts, and a table of exchange rates.

Dashboard plots follow a uniform design. The line plots show trends over the past decade, while the horizontal bar plots decompose recent developments. The latest value and its reference period are listed in the bottom left corner of the plot area for line plots. Below each plot is a brief listing of the source with a link (in blue) to the source data.

Chart of the week

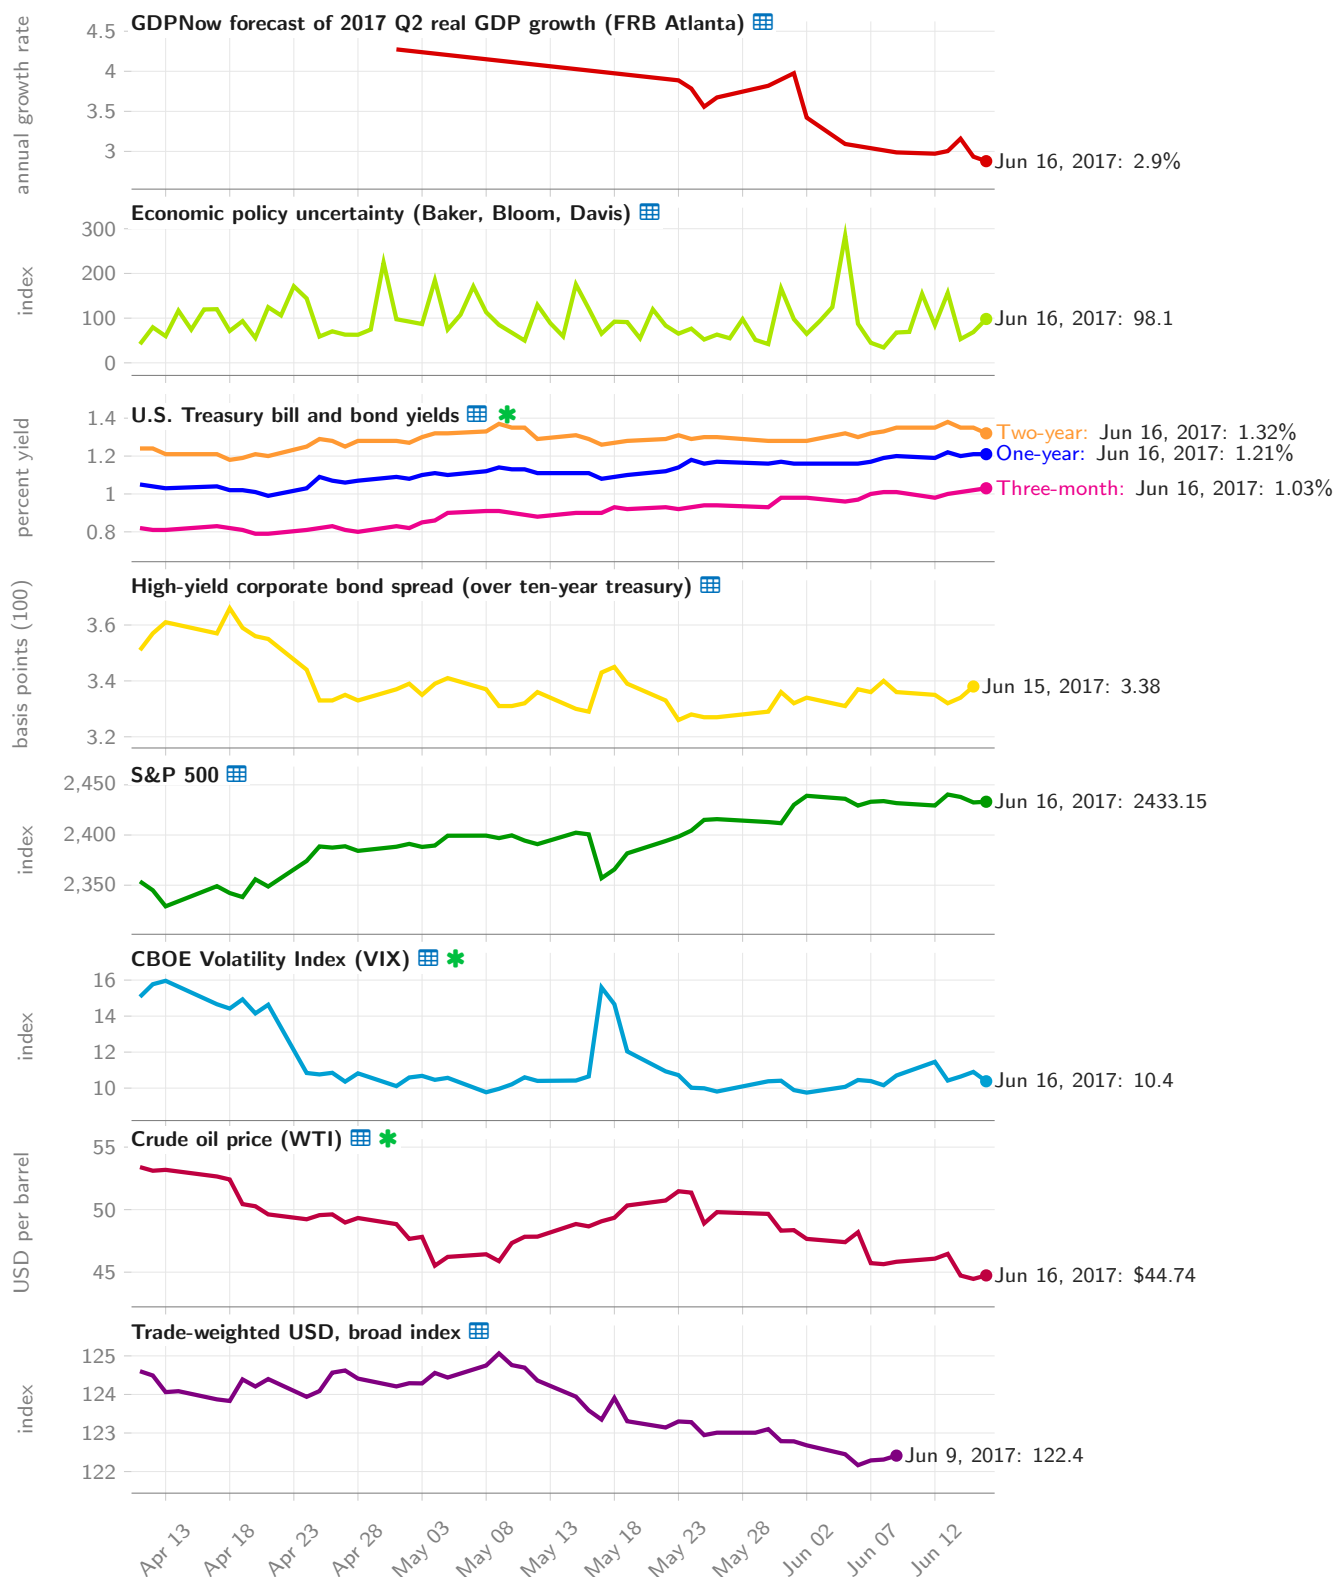

■ Real GDP growth by state in 2016 Q4 (change over previous quarter, annualized)

2016 fourth quarter GDP growth is moderate and relatively evenly distributed by state. Texas, Utah, Washington, and Florida grew most rapidly, with expansion of slightly more than three percent.
