

# Macro and Markets Dashboard: United States

Updated: March 2, 2017

Fourth quarter U.S. economic growth is moderate, with improvement in household consumption and investment offset by a widened export gap. The unemployment rate is low and near to its long-run full-capacity level. Inflation is now slightly above its two percent target in both the core CPI and the full index. Elevated consumer confidence and P/E ratios, with near long-term low equity market volatility, show an extraordinary level of optimism. Interest rates are relatively firm as the dollar continues to return recent gains.

## Economic Growth and Employment

### Real Gross Domestic Product (annual percent change)

### Civilian unemployment rate (percent)

## Inflation and Prices

### Consumer price index (CPI) (annual percent change)

### CPI components (annual percent change)
