About the Dashboard

chart: 📶 data: ⊞

The Macro and Markets Dashboard for the United States contains more than 100 indicators of the performance of the U.S. economy. The dashboard includes twelve categories of charts, grouped by sector or market, and a table of exchange rates.

Dashboard plots follow a uniform design. The line plots show trends over the past decade, while the horizontal bar plots decompose recent developments. The latest value and its reference period are listed in the bottom left corner of the plot area for line plots. Below each plot is a brief listing of the source with a link (in blue) to the source data.

Chart of the week

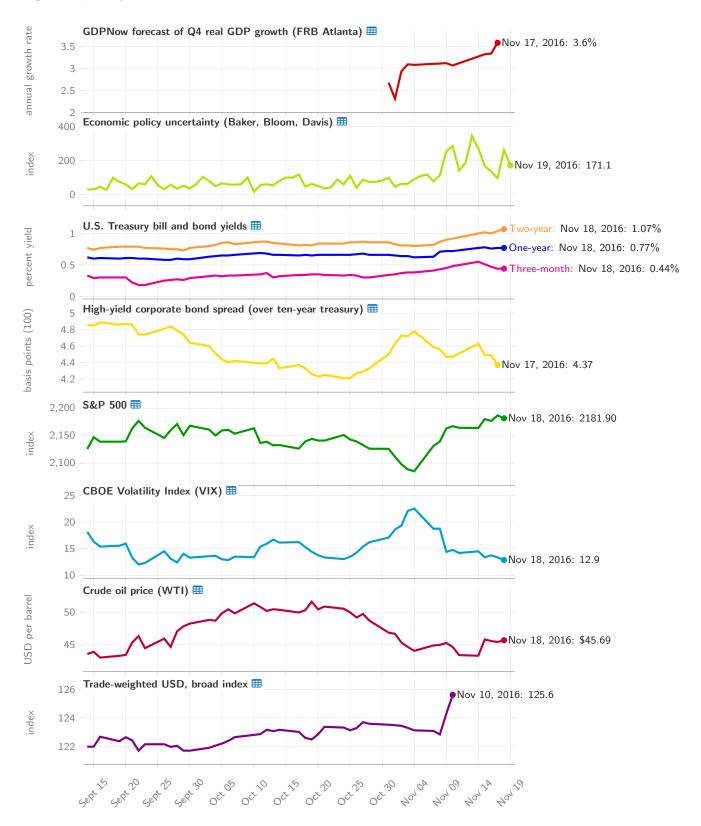

■ Inequality as measured by the income GINI ratio (ten-year percent change in parenthesis)

Sources: United States: FRED: GINIALLRH; Europe: eurostat: tessi190

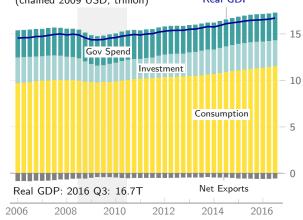

The Gini ratio measures how unevenly income is distributed among the members of society. U.S. data show a steady rise in income inequality since the 1960s. The U.S., France, and Germany have seen non-inconsequential increases over the most recent decade.

High-frequency indicators

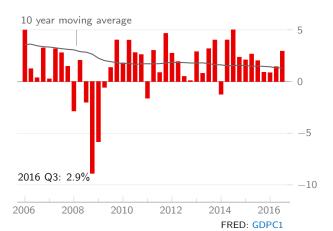

Macroeconomic Indicators: Overview

Components of real gross domestic product (GDP) (chained 2009 USD, trillion) Real GDP

FRED: GDPC1; GCEC1; GPDIC1; NETEXC; PCECC96

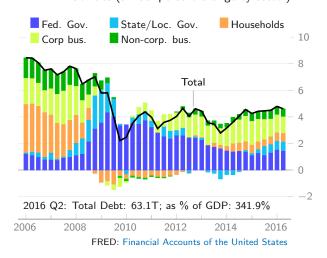

Gross domestic investment (GDI) (annual percent change by sector)

Liabilities (annual percent change by sector)

Retail sales excluding food (annual percent change)

Inventories to sales ratio

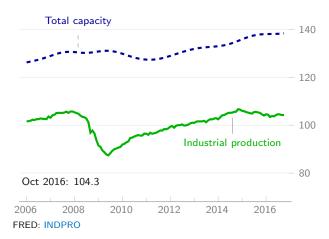

Macroeconomic Indicators: Businesses

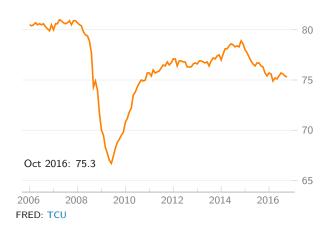

ISM manufacturing purchasing managers' index (>50 improvement; <50 deterioration)

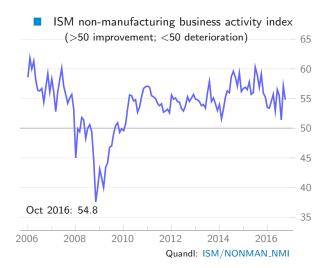

Industrial production (IP) index (2012=100)

Total capacity utilization (percent of capacity)

FRED: Industrial Production

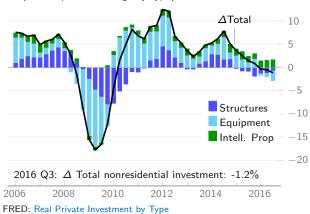

Capacity utilization change, major industry groups

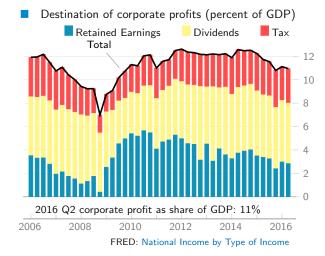

-12 - 10

-8 -6 -4 -2

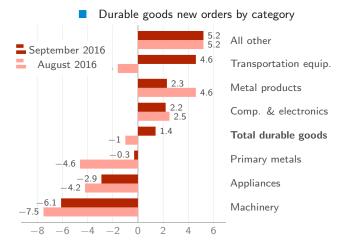

Real nonresidential fixed investment (annual percent change by type)

Durable goods new orders (annual percent change)

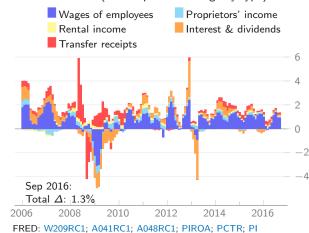

FRED: Manufacturer's Shipments, Inventories, and Orders (M3) Survey

Macroeconomic Indicators: Households

Personal income (annual percent change by type)

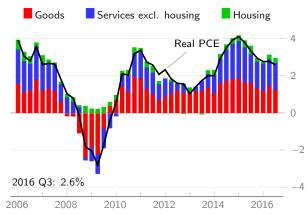

Personal consumption expenditure (PCE) (percent of GDP)

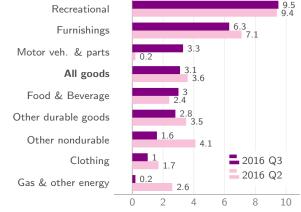

Quandl: FRED/PCE / FRED/GDP

■ Real PCE by category (annual percent change)

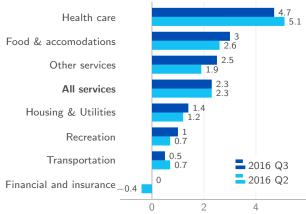

FRED: PCE by major type of product

Real PCE on goods by type (annual percent change)

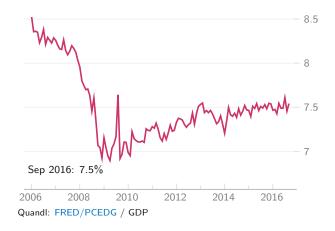

FRED: Real PCE by Major Type of Product

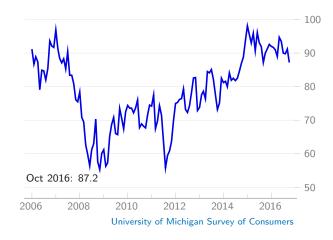

FRED: Real PCE by Major Type of Product

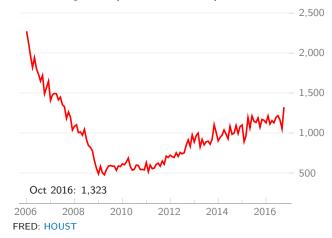

PCE on durable goods (percent of GDP)

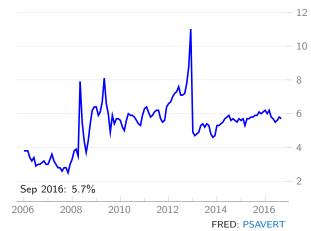

University of Michigan consumer sentiment index

New housing starts (thousands of units)

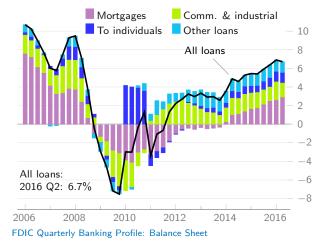

Personal savings rate (percent of disposable income)

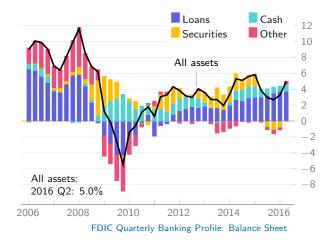

Depository Corporations

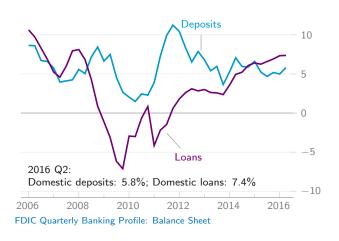

Value of bank loans by loan type (annual percent change)

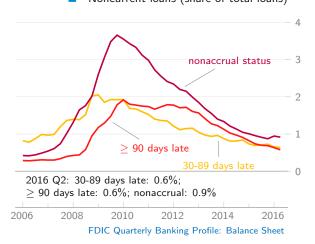

Bank assets by major type (annual percent change)

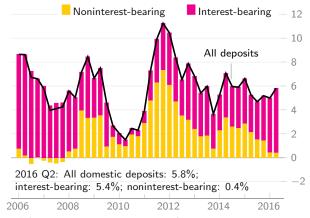

Domestic loans and deposits (annual percent change)

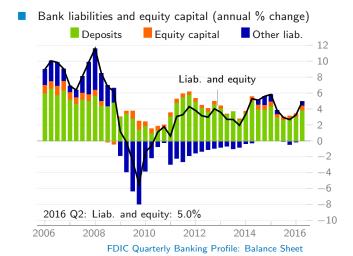

Noncurrent loans (share of total loans)

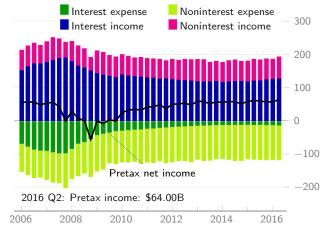

Domestic deposits (annual percent change)

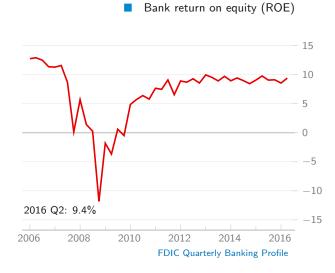

FDIC Quarterly Banking Profile: Balance Sheet

Bank income and expense (USD billions)
